AnimalWatch Vi Suite (for iPad)

American Printing House for the Blind, Inc.

Works with your Apple® iPad®!

This app and accompanying materials support students in building their math word problem solving skills.
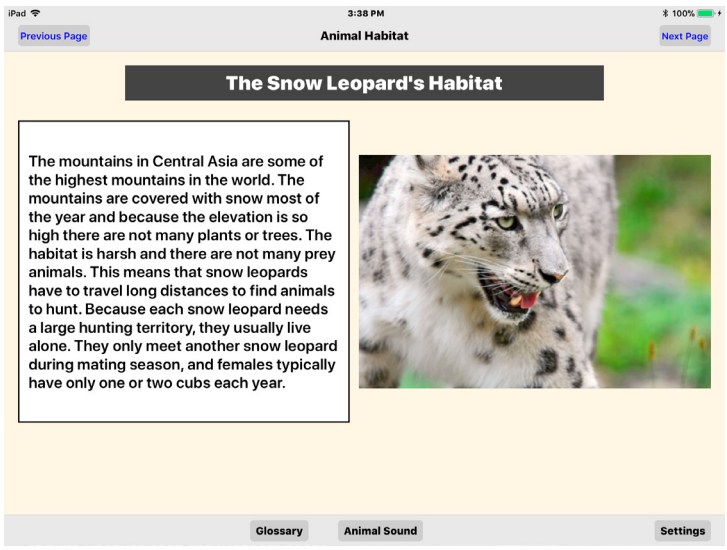

The **AnimalWatch Vi Suite** is a package including an app available from the **App Store® online store** with accompanying braille and print materials. The app and materials are available for free! Students at the pre-algebra level (grades 5-7) build their math word problem solving skills while learning about endangered and invasive species such as the black rhino, cheetah, gray wolf, and white shark.

Description of the Math Content

In addition to an introductory unit about the giant panda, there are 24 math units that align with the 6th grade Common Core Math Standards. Sample math topics include: multiplication and division; like and unlike fractions; speed, time, and distance; converting units of measurement and more.

AnimalWatch Vi Suite Includes

- An accessible app
- Optional print graphics for students who prefer a hard copy graphic to the screen version
- Braille graphics designed to be used with a fuser on microcapsule paper
- Optional braille ready files of app

**Another accessible app from APH that works for everyone!**

App Features

- Accessible via Apple's VoiceOver screen reader
- Built-in feature that emulates VoiceOver
- Ability to enlarge content using Zoom
- Built-in scratch pad
- Glossary of terms found in the app

- Scaffolded hints to support students in solving word problems
- Engaging information about the animal species
- Extensively tested with both print and braille users

Example math problems

Recommended ages: 5th to 7th grade (math level).
